Hi Elin –

I confirmed that Veera Boddu would like to stay involved in this response and Rob Weber kept aware of the progress, so can you please keep Veera on the team and include Rob as a cc going forward?

Thabet Tolaymat and Max Krause are going to sit this one out for now, but are happy to provide assistance with any landfill/waste issues that may come up, so can you remove them from the email list for now?

Can you also remove Terra, Robyn and Lance from future emails, since they don't plan to be involved at this point either.

Thanks for leading the response on this one.

Evelyn  
CESER PSC

Hi everyone--Wanted to give an update.

The UNL folks aren't available until after mid-month due to travel. Be on the lookout for another doodle poll in a couple weeks.

A few ORD folks met with some R7 staff on Monday Oct. 25<sup>th</sup> to learn some of the backstory. I've attached the notes I took during the meeting (they're a little rough, but hopefully you get the point). The bottom line is that this is a big deal with lots

of state and parts of federal agencies involved. Communication is key as we start planning any research activities involving the AltEn site. NO SURPRISES! I believe Candace Bednar is the best point of contact in the region, but it won't hurt to inform others as well.

One of our postdocs summarized the publicly available info. I've attached his email, which includes a powerpoint presentation with what he found.

**Subject:** Potential project with Univ NE-Lincoln at AltEn site; meeting availability due 10/22

If you're interested in a meeting to discuss a likely collaboration with Univ of Nebraska- Lincoln at the AltEn site, please complete the doodle poll below. If you don't have further interest, just let me know! Since non-EPA folks will also be attending, this seemed the easiest way to get everyone's availability. If you know of others who might be interested, please forward this message (and copy me). Please complete by 10/22 so I can get the meeting on our calendars before they fill up!
